

ADVANCING THE COMMON GOOD

United Way's work is focused on the building blocks for a good life: Quality education that leads to a stable job, enough income to support a family through retirement, and good health.

United Way's goal is to advance the common good and create long-lasting changes by addressing the underlying causes of problems.

Advancing the common good is less about helping one person at a time and more about changing systems to help all of us. We are all connected. We all win when a child succeeds in school, when families are financially stable, when people are healthy.

We encourage all people in the community to live the United Way. Living united means being a part of the change. It takes everyone in the community working together to create a brighter future.

GIVE. ADVOCATE. VOLUNTEER. LIVE UNITED.

Thank you for your support!

LIVE UNITED™
